Manifesting With Wands

A wand is a energy tool, it is a means of focusing your intent to achieve an aim, for example if your intent is to assist someone in their healing and you happen to be holding a wand then your intent will be focused by the wand. Wands are made from either crystal, wood or metal anything, which will conduct energy. All will focus the intent of the user to greater or lesser degrees.

Have you ever sat in a class room day-dreaming and had the teacher point a ruler at you? If you have you will recognize the sensation of having focused intent over unfocused intent direct at you! If the wand is made of crystal or contains crystals in its make up then your intent will be amplified as well as being focused.

This results in an increase in your intent manifesting in your existence, so take care when focusing your intent particularly when holding a wand! The wands I produce are used for manifesting and healing, although in my experience any contact with crystals whether with an intent to heal or not is a healing experience at some level. This can manifest itself so subtly that the energy exchange goes unnoticed, or can result in very tangible experiences such as tingling in the hands and arms. Sometimes you may experience sensations so powerful you think the top of your head is trying to unscrew itself and ascend without waiting for the rest of your body to catch up.

Whatever the sensation experienced no matter how large or how small rest assured that there is an energy exchange between any living, conscious part of creation as we interact. Some of your vibration imprint is given to the crystal and some of its imprint is given to you.

Wands have been used in many cultures throughout history. Wands and other vibration tools were used extensively in Atlantean, and Lemarian cultures, which filtered down to many of the cultures of

Africa, and Europe. In fact their legacy is still seen in positions of authority in modern society, such as staffs, crooks, and scepters wielded by church leaders and heads of state.

As interest has been rekindled in all forms of energy work, magic, healing modalities, wiccans, and shamanism, wands have found resurgence in our society. Most countries will have a number of craftsmen and women creating wands of various designs. Leather was and is used in some wand designs to insulate the energy field of the practitioner from the wand in order to focus pure intent.

With **BellaEarthica** wands the following hold true for the components:

Crystal (Acts as an energy transducer, capacitor and focus for the beam of energy.

Gem Stones: enhance and aid the crystals usually related to the Chakra system.

Copper: Channeling, grounding higher vibrations, conducting and enhancing stone energies and acting as an accumulator which sends the thought form or manifesting idea out into the universe with a thrust. **SO GET EXCITED! Feel it in your Solar Plexus Chakra first before you launch your thought form!**

Leather: acts as an insulator.
Use your wand responsibly!

SEVEN SECRETS OF MANIFESTATION By Doreen Virtue

"Where fall the footsteps of the Master, the ears of those ready for his Teaching open wide. When the ears of the student are ready to hear, then cometh the lips to fill them with Wisdom."

- The Kybalion

The Hermetic principle of **Cause and Effect**, in its aspect of The Law of Attraction, will bring these teachings to whomever is prepared to receive them. So mote it be!

•The **First Sacred Principle** is called "Mentalism." The Kybalion summarizes this principle with: "The All is Mind; The Universe is Mental."

•The **Second Sacred Principle** is called "Correspondence." The Kybalion summarizes this principle with Hermes's famous phrase: "As above, so below; as below, so above."

•The **Third Sacred Principle** is called "Vibration." The Kybalion says: "Nothing rests; everything moves; everything vibrates."

The **Fourth Sacred Principle** is called "Polarity." The Kybalion summarizes this principle with: "Everything is Dual; everything has poles; everything has its pair of opposites; like and unlike are the same."

•The **Fifth Sacred Principle** is called "Rhythm." The Kybalion summarizes this principle with: "Everything flows, out and in; everything has its tides; all things rise and fall; the pendulum-swing manifests in everything; the measure of the swing to the right is the measure of the swing to the left; rhythm compensates."

•The **Sixth Sacred Principle** is called "Cause and Effect." The Kybalion says: "Every Cause has its Effect; every Effect has its Cause; everything happens according to Law; Chance is but a name for Law not recognized; there are many planes of causation, but nothing escapes the Law."

•The **Seventh Sacred Principle** is called "Gender." The Kybalion summarizes this principle with: "Gender is in everything; everything has its Masculine and Feminine Principles; Gender manifests on all planes."

"The Principles of Truth are Seven; he who knows these, understandingly, possesses the Magic Key before whose touch all the Doors of the Temple fly open."
